

93% FAD Flavin Adenine Dinucleotide Disodium Salt Orange Vitamin Derivatives CAS 84366-81-4

Our Product Introduction

for more products please visit us on antiageingredients.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: HYGIEIA, XIJIYA
- Model Number: XJY06
- Price: \$149.00/grams ≥ 1 grams
- Packaging Details: 1kg per bag in aluminum bag; 10kg per bag in aluminum bag; 10kgs per drum.
- Supply Ability: 1000 Kilogram/Kilograms per Month

Product Specification

- Type: Nutrition Enhancers
- Appearance: Orange Powder
- CAS No: 84366-81-4
- Packing: Customized
- Color: Orange
- Port: Shenzhen
- Name: Flavin Adenine Dinucleotide Ascorbic Acid Vitamin C
- Highlight: 93% Flavin Adenine Dinucleotide Disodium Salt, CAS 84366-81-4 Enzyme Cofactor, CAS 84366-81-4 Vitamin Derivatives

Product Description

Product name:	FAD/Coneyzme /Enzyme Cofactor/ Flavin Adenine Dinucleotide /FAD disodium
CAS No.:	84366-81-4
Product Purity:	>93%
Product appearance:	powder

Product advantages

1.High purity: >93% 2.Orange powder 3.Fermentation process, green and environment friendly 4.Long shelflife: 24 months, product is stable
5.Heavy metal and microorganism meet food grade 6.Short delivery time: in stock product

Application field

1.New drug development 2.Enzymatic reaction 3.IVD/Diagnostic Kits 4.Lab research purpose

FLAVIN ADENINE DINUCLEOTIDE

Leading Bulk FAD Manufacturer

High purity

Safety

Company Profile

Shenzhen Hygieia Biotechnology Co., Ltd. engaged in the research of biocatalysis and synthetic biology, focusing on the R & D, production and sales of new dietary nutritional supplement raw materials and medical beauty raw materials. In 2019, we realized the industrialization of high quality Nicotinamide Mononucleotide (NMN) which has been approved by US and Japan Test lab, with a number of independent intellectual property rights.

In the future, Hygieia will introduce computer AI-design technology into protein artificial assembly, and combine with new enzyme engineering technology to achieve more technological breakthroughs.

In addition, we actively participate in the research projects with domestic and foreign research institutions, help promote the progress of NMN in clinical research, continuously expand the research of NMN application and explore related indications, and provide more basic research data support for NMN industry chain!

We focus on anti-aging, focus on health, and share the future with you!
