Basic Information

Product Specification

- Product Name: Nicotinamide Riboside(ENERGENCY™)
- Synonyms: NR,NRC
- CAS Number: 23111-00-4
- Molecular Formula: C₁₁H₁₅ N₂O₅Cl
- Molecular Weight: 290.70
- Appearance/color: White Crystalline Powder
- Specifications: >98%
- Solubility: Slightly Water Soluble
- Package: 1kg/bag, 25kg/drum
- Highlight: **23111-00-4 Nicotinamide Ribose, High Purity Nicotinamide Ribose, White Crystalline Powder Nicotinamida Ribosida**

Product Description

Nicotinamide Riboside (ENERENCY™)

Nicotinamide ribose (NR), a derivative of vitamin B3, is a precursor substrate of nicotinamide adenine dinucleotide (NAD⁺).
